INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyright, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Administrative Services Division, Companies Division, Patent and Copyright Office, Registration Division, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 807 companies under Part I and 57 corporations without share capital under Part II.

Supplementary letters patent were granted to 510 existing companies and to 11 existing corporations without share capital; 8 certificates were issued to existing companies increasing the amount of consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 15 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66, 67 and 68 was 144.

The number of annual summaries submitted under section 125 totalled 12,116.

Certificates of acceptance of surrender of charters were issued dissolving 268 companies under section 29 and 136 charters were returned for cancellation. Advice was received to the effect that 48 companies had gone into bankruptcy or were in process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 5,168 searches undertaken by the Searching Section, of which 3,775 were to determine the availability of suggested corporate names and 1,393 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 20 boards of trade registered and 9 orders in council issued changing the names of boards of trade. There were 2 boards of trade dissolved.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1959.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office again shows an increase compared with that of the previous year.

Applications for patents totalled 22,912, an increase of 655, or 2.9 per cent. Of the total number of applications filed, 16,668 claimed priority of filing date under the International Convention for the Protection of Industrial Property. This is an increase of 406 or about 2.47 per cent.

Allowances of applications totalled 21,920, an increase of 4,203 or 23.7 per cent over last year. There were 29,543 reports on patentability, a decrease of 3,713 from last year. Special directives issued by the Commissioner in connection with the examination made the reports more effective, decreased their number and increased the number of allowances. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 51,463 or 490 more than last year and represent also an all time record for the Office. During the year 4,501 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution.

There were 18,293 patents issued. This is an increase of 2,032 or 12.5 per cent over last year. This is also an all time high.

The number of deeds entered in the register of assignments was 20,208, an increase of 464.

Copies of specifications, drawings and other patent documents to the number of 9,177 were made.

Copyright applications numbered 5,497 and there were 5,331 registrations made. Industrial design applications amounted to 798 and 684 designs were registered; 166 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,583,145.24 an increase of \$122,941.40 from the preceding year.

Receipts from the Patent Branch totalled \$1,559,704.66. This is \$121,486.37 more than last year. There were increases mainly in filing, final assignments, claims, caveats and searches under section 11 fees.

Copyright Branch receipts were \$23,440.58, an increase of \$1,455.03.

The total expenditure was \$2,167,157.40 an increase of \$177,133.10. Most of this increase is due to salaries including normal statutory increases and new employees.

PATENT GRANTS

There were 18,293 patents granted. Of the total 18,265 were issued for the full term of seventeen years and 10 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, 18 patents were issued.

Patents issued to assignees of the whole interest totalled 15,431, jointly to inventors and assignees of part interest 126, to inventors or to legal representatives 2,736.

The number of patents issued to companies was 15,004, to individuals 3,240 and to companies and individuals jointly 49.

Patents where invention was claimed to have been made by two or more inventors totalled 5,767 and by one inventor 12,526.

Of the total, 66 patents were issued to female inventors, to male and female inventors jointly 80, and to male inventors 18,147.

There were 1,515 patents granted to Canadian citizens or companies and 16,778 to applicants of foreign origin.

There were 22 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fee within the period required by section 75, a total of 684 allowed applications became forfeited. Upon payment of restoration and final fees 133 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 129.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 56 agents were added to the Register. By reason of failure to comply with rule 144, the names of 40 patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto and Hamilton on October 20th and 21st, 1958. Twenty-seven candidates tried the examination and fifteen were successful. At the close of the year the names of 1,112 patent attorneys and patent agents appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday in each week. Publication was made in each issue of the principal drawings and claims of patents granted on the day of publication, notices and other actions under the Patent Act, lists of copyrights registered, assignments of copyrights and abridgements of industrial designs registered during the week.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents and designs from patent offices in Australia, Austria, Belgium, Brazil, Egypt, France, Great Britain, Germany, India, Italy, Japan, Korea, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Union of South Africa, Sweden, Switzerland and the United States of America.

The "Record" was also exchanged for 19 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 19,350 patents during the year for the Office. This figure includes 288 reprints and 776 patents of the issue of 1948.

PATENT OFFICE LIBRARY

During the year 1,067 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Sweden, Switzerland and the United States of America. In addition, patent journals, indexes and reports were received from the countries named in the paragraph above entitled Patent Office Record.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely: Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1925, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950 and Japan from 1950. The Library also contains printed copies of Canadian patents from January 1, 1948, and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 1824 of March 31, 1959.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 28,215 volumes in all.

MICROFILMING

During the year 74,259 patents were microfilmed. This includes patents No. 195,077 to 269,335 for the period of 1919 to 1927. The total number of patents microfilmed is 103,536. This is for the period 1916 to 1927.

STAFF

The number of established positions was increased during the year from 295 to 311, as provided for in the Estimates for 1958-59.

The average number of positions occupied was 290.

During the year 28 Patent Examiners and 2 Technical Officers were appointed. Thirteen Examiners resigned their positions and one retired on pension. The average number of Examiners' positions filled was 101.

Although there was a net gain in the recruitment of Patent Examiners, there was still a shortage of qualified candidates in this specialized field.

NEWFOUNDLAND PATENTS

Five applications for the grant of letters patent under the laws of Newfoundland (pursuant to the provisions of subsection 3 of section 20 of the Terms of Union of Newfoundland with Canada) remained pending at the end of the year, notice of objection to the grant of such letters patent having been filed against each application.

REGISTRATION DIVISION

The following schedule indicates the number of documents issued and registered in this section from April 1, 1958 to March 31, 1959 inclusive.

The Registration Division is charged with the responsibility of collecting the returns to orders and addresses of the House of Commons and Senate and also the answers to questions which concern more than one department of the government.

The Division is the custodian of the following seals, which it affixes to the appropriate documents: Great Seal of Canada, Governor General's Privy Seal, Seal of the Administrator of Canada, Seal of the Secretary of State of Canada, and Seal of the Registrar General of Canada.

A considerable amount of miscellaneous work was performed in connection with the registration of documents, proof-reading, furnishing memoranda of various kinds and supplying information from the indexes and records.

Lists are appended of public officers whose commissions were registered, of Boards of Trade registered under the Boards of Trade Act, and of registered bonds and securities.

SPECIAL DIVISION

Applications were considered and correspondence was carried on in connection with applications for royal patronage, for example, in the form of permission to use the title "Royal" and the names of members of the Royal Family; arrangements were made for congratulatory messages from the Sovereign in 561 cases of sixtieth wedding anniversaries and 83 cases of one hundredth birthdays.

A number of suggestions for the award of bravery decorations by the Queen to Canadian citizens were received by the Department, investigated and submitted to the Decorations Committee.

The customary arrangements were made for the printing and distribution of the Speech from the Throne for the opening and closing of the first session and the opening of the second session of the 24th Parliament.

Permission was granted by the Secretary of State for the use of Parliament Hill and the National War Memorial for sixteen ceremonies.

The Director of the Special Division was designated on November 25, 1958 to represent the Department on the Special Interdepartmental Committee appointed to assist Lt.-General Howard Graham as commissioner in charge of arrangements for the formal opening of the St. Lawrence Seaway on June 26 by Her Majesty the Queen and for the tour of Canada from June 18 to August 1, 1959 of Her Majesty and His Royal Highness the Duke of Edinburgh. The full-time services of the Secretary of the Division were made available to the Royal Tour Committee for the period of preparatory planning and until the conclusion of the tour.

The Secretary of State, in consultation with the Keeper of the Privy Purse, Buckingham Palace, issued regulations governing the reproduction of representations of royal portraits, the royal crown and other royal emblems, and the armorial bearings of Canada on souvenirs and in displays commemorating the royal tour and the opening of the St. Lawrence Seaway. Considerable correspondence with the public on this subject was dealt with.

The Department was represented by the Director and the Secretary of the Special Division on the Government Hospitality Committee in charge of arrangements for the tour of Canada by H.R.H. the Princess Margaret from July 26 to August 11, 1958. The Secretary of the Division was one of the officials in attendance during the tour. Her Royal Highness was the guest of the Province of British Columbia from July 12 to July 26.

Other hospitality and ceremonial arrangements as to which the Special Division gave assistance during the year included:

Reception and Dinner on May 21 and May 28, 1958, respectively, at Montreal by the Hon. George Hees, Minister of Transport, on behalf of the Government of Canada in honour of the delegates to the Eleventh Session of the Assembly of the International Civil Aviation Organization, Montreal;

Luncheon by the Hon. J. Waldo Monteith, Minister of National Health and Welfare, in honour of the Hon. Mrs. Vimala Wijewardene, Minister of Health of Ceylon, June 4, 1958;

Celebration of Dominion Day on Parliament Hill, July 1, 1958;

Luncheon by the Rt. Hon. John G. Diefenbaker, Prime Minister of Canada, in honour of Dwight D. Eisenhower, President of the United States of America, July 9, 1958;

Address by the Hon. Dr. Kwame Nkrumah, Prime Minister of Ghana, to Members of the Senate and of the House of Commons, July 21, 1958;

Reception by the Prime Minister of Canada and Mrs. Diefenbaker in honour of Her Royal Highness the Princess Margaret, August 2, 1958;

The Governor General's Levée in the Parliament Buildings on New Year's Day, January 1, 1959.

Arrangements were made by the Special Division for the State Funeral of the late Hon. Dr. Sidney Smith, M.P., Secretary of State for External Affairs, who died on March 17, 1959. Interment took place at Windsor, N.S.

The Guide to Relative Precedence at Ottawa, based on the Table of Precedence for Canada, was revised and issued.

The Division gave the usual assistance in response to numerous written and verbal enquiries concerning protocol, such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, the proposing of toasts, the use of royal photographs, the use of flags and armorial bearings, and the national anthem.

Correspondence was conducted in relation to 95 documents deposited pursuant to statutory requirements, the authentication by the Governor General of 105 documents and the transmission of 253 commissions of appointment.

Statutes of the provinces were received and sent to the Department of Justice for examination under Section 90 of the B.N.A. Act; warrants under the Extradition Act were forwarded. There was no action taken under the Canada Temperance Act; part II of this act remains in force only in the counties of Perth and Huron in the Province of Ontario.

The Special Division compiled and edited the annual report of the Secretary of State. The Division maintained a limited service of newspaper clippings for the Department.

BUREAU FOR TRANSLATIONS

As at March 31, 1959, the staff of the Bureau numbered 306 employees, including 219 translators of all grades and 87 administrative and clerical employees.

Parliamentary and Legal Translations

Translation was made by the respective divisions of the official report of the House of Commons Debates, which covered 6,733 pages, the report of the Senate Debates comprising 1,016 pages, the proceedings of the standing and special committees of both Houses, and the estimates.

The Law Division translated 448 bills and motions with explanatory notes and indexes.

In addition to the day-to-day translation of orders, proclamations, regulations implementing various acts, and indexes, the Bureau's Privy Council Division is responsible for translating international conventions and agreements, and many legal documents for the Privy Council. This division undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders, and other departmental documents.

The parliamentary divisions also did translation for other governmental bodies and commissions.

Under the heading of parliamentary translations, mention must be made of the simultaneous interpretation service that was set up in the House of Commons. This service is attached to the Debates Division of the Bureau for Translations. Working in conjunction with the Civil Service Commission, the Bureau recruited interpreters after holding public competitions. These interpreters then underwent training to improve their skill, using equipment designed for that purpose. The interpretation service was made ready during the parliamentary recess and began to operate at the beginning of the session in January 1959. The members of this service, officially called "Interpreter-Translators", will do translation work between parliamentary sessions.

Departmental Translation

The volume of work done by the departmental divisions continues to increase to the point where the staff of some of the divisions will have to be increased.

Foreign Languages

The work of the Foreign Languages Division continues to increase. The volume of translation from Russian, in particular, is steadily rising.

Translation Done on a Firm Price Basis Outside of the Bureau

As in other years, it has been necessary to enlist the services of outside translators. The volume of translation done in that way for the General Translation Division increased to 1,153,100 words compared with 65,200 words the previous year. This was chiefly due to the volume of proceedings of the parliamentary committees. For the Foreign Languages Division, 1,808,338 words were sent out for translation, compared with 1,328,643 words the previous year.

Total Work Done

It will be seen from the table on page 30 that the translation done by the Bureau during the year 1958-59 totals 81,660,805 words. This includes translations done outside the Bureau. By comparing this figure with that of 72,743,548 words done the previous year, it will be seen that there has been an increase of some 12 per cent. The "Words" column under the heading "Miscellaneous" refers to the preparation of reports, statistical documents, comparison and standardization of texts, written consultations, etc.

The "Hours" column represents the time spent in research, proof-reading, the revision of work done outside the division concerned, the compiling of glossaries, and other work related to translation which cannot be calculated in numbers of words.

Co-operation with Other Bodies

Translators are called upon to give assistance to other official bodies as, for example, in the marking of translation examination papers for the Civil Service Commission, or reviewing candidates records in promotional competitions; in addition, assistance is given to various departmental and interdepartmental committees such as the Board of Geographical Names, Department of Mines and Technical Surveys. The time devoted to such assistance is not reflected in the table on page 30.

Terminology Service

During the past year, this service published several terminological bulletins and several others are in preparation. The service is revising older bulletins and bringing them up to date. A plan is under consideration to make these documents available to the public.

The terminology Service keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This service co-operates and exchanges information with the *Comité d'étude des termes techniques français*, of Paris, among others.

During the past year, this service published the following terminological bulletins:

Termes administratifs et politiques (BT-66)

Vocabulaire parlementaire (nouvelle édition—annule BT-54) (BT-67)

Répertoire alphabétique des lois fédérales (remplace BT-62) (BT-68)

Désignations des organismes de l'État (remplace BT-17 et 24) (BT-69)

Vocabulaire général "B" (BT-70)

Les fiches du Comité d'étude des termes techniques français (5^e série) (BT-71)

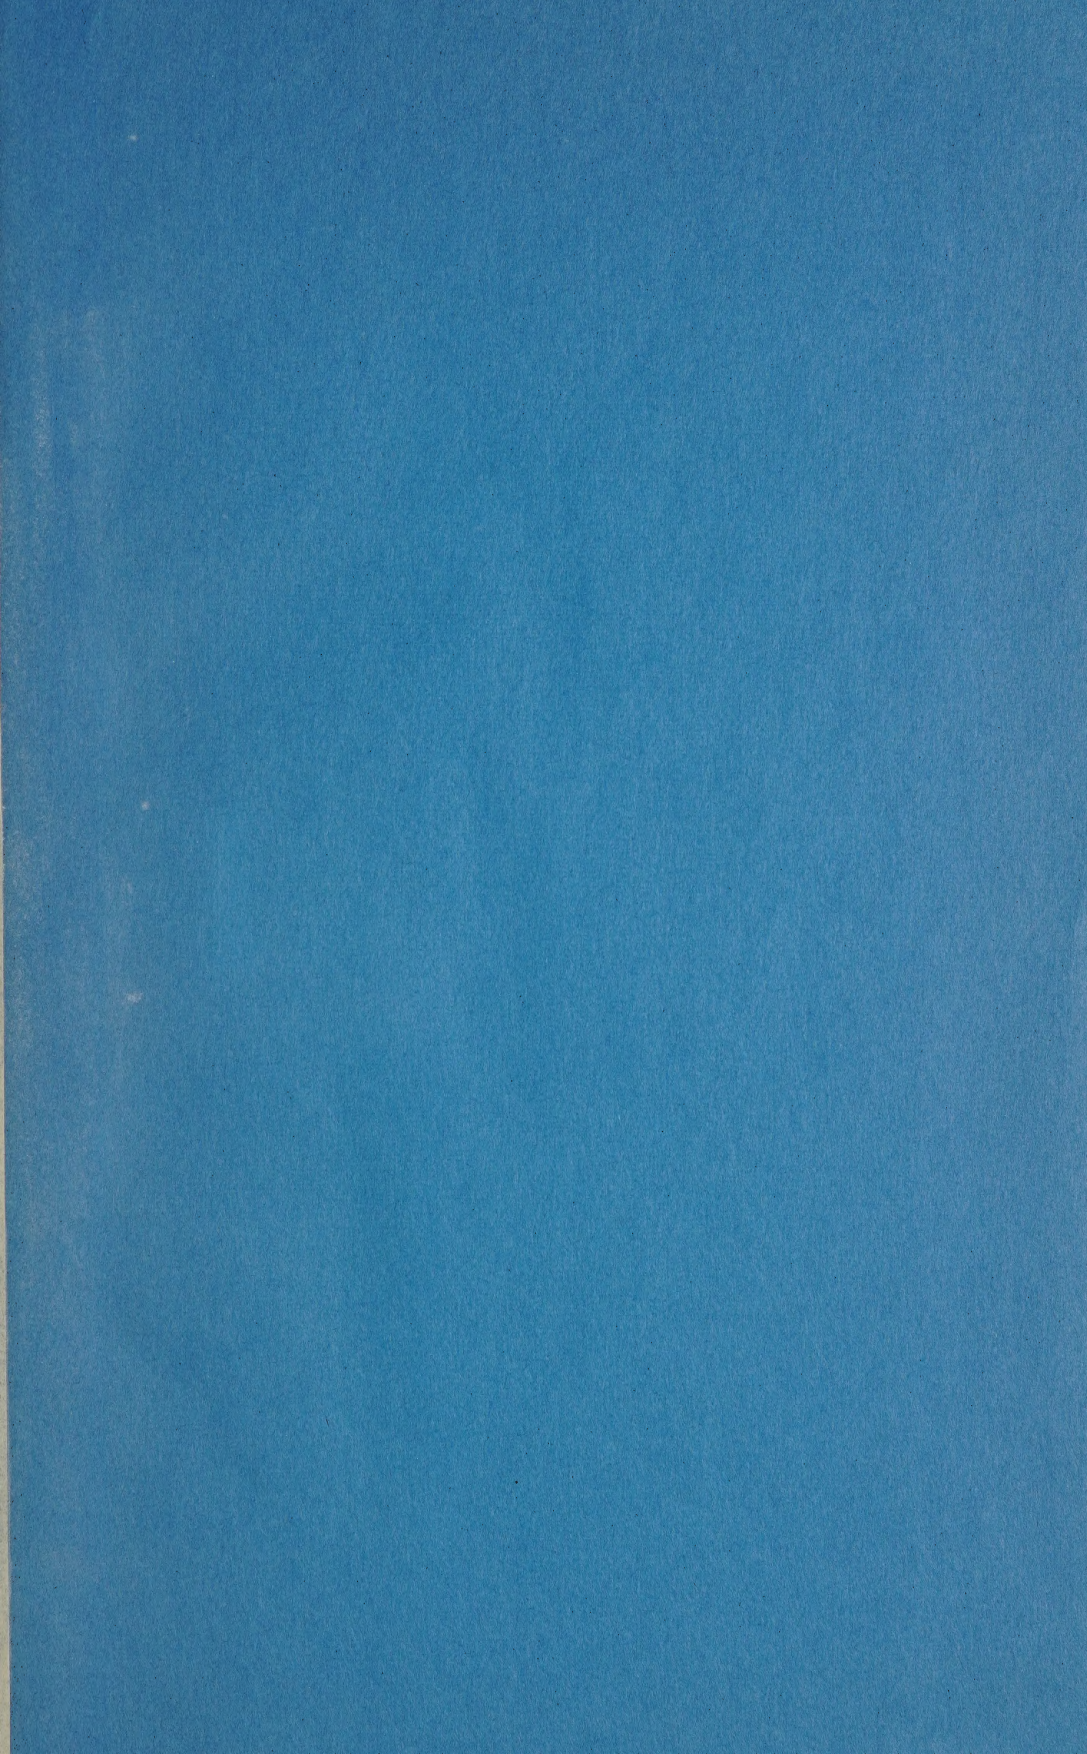

Répertoire alphabétique des lois fédérales (supplément à BT-68) (BT-72)

Vocabulaire général "C" (BT-73)

Vocabulaire général "D" (BT-74)
